

# Key changes to smoke alarm requirements for rented homes

---

Information on who can repair or replace a smoke alarm or change a battery in a tenancy

From 23 March 2020, NSW landlords and agents need to ensure that smoke alarms installed in rented properties are in working order.

## Requirements for landlords and agents

---

- Where a smoke alarm is not in working order, landlords and agents must ensure the alarm is repaired (this includes replacing a battery) within 2 business days.
- Landlords and agents must check smoke alarms every year to ensure they are working.
- Landlords and agents must ensure:
  - smoke alarms are replaced within 10 years of manufacture, or earlier if specified by the manufacturer
  - batteries are installed or replaced every year (or for lithium batteries, in the period specified by the manufacturer).
- Landlords and agents must give at least 2 business days' notice to inspect or assess the need for smoke alarm repair or replacement, and at least 1 hour notice to carry out repair or replacement of a smoke alarm.

## Requirements for tenants

---

- Tenants must notify their landlord or agent if they discover that a smoke alarm is not working (this includes when the battery needs to be changed).
- Tenants must notify their landlord when they change a battery in a smoke alarm or engage a licensed electrician to repair or replace an alarm. The different circumstances where a tenant can change a battery or engage a licensed electrician are provided in the table below. This does not apply to social housing tenants.

## Responsibilities for certain types of alarms

---

Below is more information to help landlords and agents understand their responsibilities for different types of smoke alarms, and the situations where a tenant can change a battery in a smoke alarm or arrange for a repair.
